Dear Alan:

Thanks for the good note . It was, indeed, a nice meeting in Durham, but I must tell you that I enjoyed you more at the Southeastern Section: your talk was just outstanding.

A Letter and Annual Report

I'm asking our staff to mail you a copy of the Annual Report of the Council for Tobacco Research, along with a letter of instruction regarding the preliminary inquiry which is required before submission of a formal grant application. All of this will be self explanitory.

Our grants are heavily slanted toward basic science, particulary Molecular Biology, Immunology, Genetics and so forth however, there is virtually no topic that does not hold some interest for us.

Further, the average grant is $80,000 a year and the anticipation duration is three years.

Best Regards,

James F. Glenn, M.D.
